

Autumn Blaze Maple

(*Acer x freemanii* 'Jeffsred')

Shade Tree

40' - 50' High

30' - 40' Spread

Oval Shape

**Growth
Fast**

Full Sun

**Water Needs
Moderate**

Zone 3 - 8

Creative breeding has produced a tree that is perfect for today's busy homeowner. The Autumn Blaze is a hybridized maple; a cross between a Red and Silver Maple. The resulting features are fast growth and a striking red fall color. The Autumn Blaze Maple is somewhat clay tolerant and can handle occasional wet soils.
