

Deborah Maple

(*Acer platanoides* 'Deborah')

Shade Tree

40' - 50' High

30' - 50' Spread

Round Shape

Growth

Moderate

Full Sun

Water Needs

Moderate

Zone 4 - 7

Deborah Maple has coarse, spreading branches that form a broad rounded tree with large leaves emerging reddish-bronze in spring then changing to dark bronze-green as they mature. The fall foliage turns a reddish bronze. Great shade producing tree!
