

Single-stem Allegheny Serviceberry

(*Amelanchier laevis*)

Flowering Tree

15' - 25' High

15' - 25' Spread

Medium Growth

Full Sun/Part Shade

Various Soils

Upright Oval Shape

The single stem Allegheny Serviceberry is a perfect addition to many landscapes. It is small enough to fit in a variety of places, but big enough to make a statement. It blooms white in the spring, and has edible berries that humans and birds can enjoy. It is also commonly known as the Juneberry, because the fruit ripens in June. Fall color is a mix of red, orange and yellow, and the smooth gray bark adds interest in winter. (Zones 4 - 8)
