

# Red October Big Bluestem

*(Andropogon gerardii 'Red October')*

**Perennial Grass**

**4' - 6' Tall**

**2' - 3' Wide**

**Fast Growth**

**Full Sun**

**Water Needs:  
Moderate**

**Zones 3 - 9**

Red October Big Bluestem has deep green foliage with red highlights in the spring, then it becomes a deep red in the fall, and finally turns bright scarlet red with first frost. It has burgundy red seed heads that appear in late summer and persist into winter.
