

Aphrodite Althea

(Hibiscus syriacus 'Aphrodite')

Flowering Shrub

6' - 10' High

5' - 8' Spread

Medium to Fast Growth

Full Sun/Part Shade

Various Soils

Upright Shape

The Aphrodite Althea also called the Rose of Sharon has eye-catching flowers and a long bloom season. The flowers, which start in late summer, are a bright pink with a red center and can get up to 4" wide. They are the major focal point of this shrub. This variety of Hibiscus maintains a dense branch structure and has good foliage throughout the year making it a good choice for a large hedge row. It also has clay, deer, and drought tolerance. (Zones 5 - 9)
