

Armstrong Maple

(*Acer x freemanii* 'Armstrong')

Shade Tree

45' - 60' High

10' - 15' Spread

Fast Growth

Full Sun/Part Shade

Various Soils

Columnar Shape

The Armstrong Maple is a fast growing, hybrid maple with columnar form. It is perfectly suited for areas with limited horizontal space; near buildings or in narrow planting strips between a sidewalk and street. They create drama when used as a driveway lining. Armstrongs have good yellow, orange, and red fall color. They are heat tolerant, and they can withstand clay and occasional moist soils. (Zones 3 - 9)
