

Arrowwood Viburnum

Iowa Native

(Viburnum dentatum)

Flowering Shrub

6' - 10' High

6' - 10' Spread

Medium Growth

Full Sun/ Part Shade

Various Soils

Round Shape

The Arrowwood Viburnum is a multi-stemmed, rounded shrub with creamy white late spring or early summer flowers. Its leaves are lustrous, dark green in summer, and its fall color is yellow, orange, and red. The flowers are followed by small, blue colored berries. This shrub provides food, cover, and nesting sites for birds, and larval food for butterflies and moths. It prefers well-drained soils and full sun to partial shade.

(Zones 3 - 8)
