

Autumn Brilliance Serviceberry

(*Amelanchier x grandiflora* 'Autumn Brilliance')

Flowering Tree

15' - 25' High

15' - 20' Spread

Medium Growth

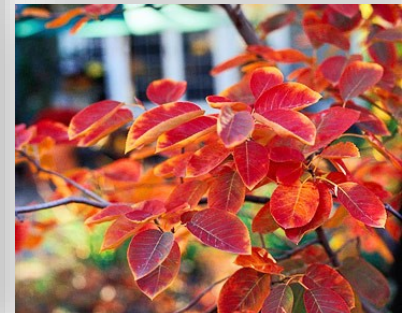

Full Sun/Part Shade

Various Soils

Oval Shape

This hybrid serviceberry cultivar is a deciduous, early-flowering large shrub or small tree. It features showy white flowers which appear before the leaves emerge in early spring. As its name suggests, foliage is brilliant orange-red in autumn. In June, flowers give way to edible berries that are sweet, and can be eaten fresh or used in pies or jams. It prefers well drained soil, and grows in full sun to part shade. (Zones 4 - 8)
