

Clump River Birch

Iowa Native

(*Betula nigra*)

Shade Tree

40' - 70' High

40' - 60' Spread

Fast Growth

Full Sun/Part Shade

Various/Wet Soils

Oval Shape

The combination of fast growth, a unique bark, and a multi-stem make the Clump River Birch a consistent favorite. The copper, cream, and tan colored exfoliating bark is particularly spectacular in the winter. Leaves of the Clump River Birch turn yellow in fall adding color to your landscape year round. It natively grows along rivers and lakes, and they love wet soil. The River Birch is more resistant to Bronze Birch Borer than other Birch species. Zones 4 - 9).
