

Crimson Pointe Plum

(*Prunus x cerasifera* 'Cripoizam')

Flowering Tree

20' - 25' High

5' - 8' Spread

Medium to Fast Growth

Full Sun/Part Shade

Well Drained Soils

Columnar Shape

The Crimson Pointe Plum is blanketed with stunning clusters of fragrant pinkish white flowers in early spring before the leaves emerge. The pointy leaves are ornamentally significant and emerge reddish in spring and darken to purple in summer. The fruits are small, purple drupes that are displayed in mid summer. Flowering plums have smooth brick red bark. Can be planted almost anywhere, including close to buildings. (Zones 4 - 9)
