

Skyline Honeylocust

(Gleditsia triacanthos var. inermis 'Skycole')

Shade Tree

35' - 45' High

25' - 35' Spread

Oval Shape

**Growth
Fast**

Full Sun

**Water Needs
Moderate**

Zone 3 - 8

The Skyline is a thornless, seedless variety of Honeylocust that is used in many residential and commercial settings due to its low maintenance. This tree offers fast growth, and provides dappled shade. It offers a nice yellow fall color, and that is paired with minimal to no raking. It is tolerant to wind, heat, drought, and air pollutants. The Skyline also tolerates a wide range of soils including clay. It can be used in various ways; from a stand alone specimen shade tree, to a street side beauty.
