

Golden Japanese Forest Grass

(Hakonechloa macra 'Aureola')

Perennial Grass

18" Tall

18" Wide

Moderate Growth

Shade to Part Sun

**Water Needs:
Moderate**

Zones 4 - 9

Golden Japanese Forest Grass is a vigorous broad-leaved grass that behaves a lot like dwarf Bamboo without the spreading problem. It's a ray of sunshine in shaded or dark-colored gardens. The golden grass-like leaves will brighten partly-shaded or dark-colored gardens.
