

Hetz Midget Arborvitae

(*Thuja occidentalis* 'Hetz Midget')

Evergreen Shrub

3' - 4' High

3' - 4' Spread

Slow Growth

Full Sun/Part Shade

Various Soils

Round Shape

The Hetz Midget Arborvitae is a small, dense evergreen that requires no shearing to maintain its naturally round form. It has rich green foliage during the summer that takes on a purple cast in the winter months. This arborvitae prefers sun to partial shade, moist, well-drained soil, and protection from strong winds. Being a very tough and durable plant, Hetz Midget Arborvitae makes a popular accent plant for any landscape. (Zones 3 - 7)
