

Snow Mountain Hydrangea Tree

(Hydrangea paniculata 'Snow Mountain')

Ornamental Tree

6' - 8' High

6' - 8' Spread

Round Shape

**Growth
Moderate**

Full Sun

**Water Needs
Moderate**

Zone 3 - 8

An improved tree-type of panicle hydrangea with showy, dense clusters of creamy, sterile florets in July. The panicles turn a soft pink and deepen as they age into autumn. An ideal choice for a small, flowering tree that can be planted near foundations or used as a corner accent in the landscape. Cut flowers can be used in fresh or dried floral arrangements.
