

Newport Purple Leaf Plum

(*Prunus cerasifera* 'Newport')

Flowering Tree

20' - 25' High

15' - 20' Spread

Medium to Fast Growth

Full Sun

Well Drained Soils

Round Shape

The Newport Purple Leaf Plum is an ideal accent tree with lovely purple foliage and bright pinkish/white spring flowers. Design-wise, the Newport Plum visually stands out against green and other colors in the landscape. It can be used to give an enclosed feeling around patios, or as a beautiful front yard tree. Plant it far enough away to allow space for its low branches to spread. The Newport needs full sun and well drained soil. (Zone 4 - 8)
