

Dart's Gold Ninebark

(Physocarpus opulifolius 'Dart's Gold')

Flowering Shrub

4' - 6' High

4' - 6' Spread

Medium Growth

Full Sun/Part Shade

Various Soils

Round Shape

The Dart's Gold Ninebark is best known for its ever-changing foliage. Large leaves that resemble a maple tree emerge bright golden yellow in spring, age to lime green, then take on a golden hue with a bronze tint in fall. With small clusters of white flowers in the spring and a red fruit in the fall, the Dart's Gold will definitely impress the masses. (Zones 3 - 7)
