

Bruns Serbian Spruce

(Picea omorika 'Bruns')

Evergreen Tree

25' - 35' High

8' - 10' Spread

Pyramidal Shape

**Growth
Slow**

Full Sun

**Water Needs
Low**

Zone 4 - 8

Brun's Serbian Spruce has a beautifully upright, pyramidal form with graceful branching and dense foliage. The uniform habit and deep green needles with silver bands on their undersides distinguish this exceptional selection from other spruce varieties. It can be used in landscapes as a specimen, privacy screen, or windbreak.
