Pinky Winky has an unusual name, and an even more unusual flower. The large white panicles open in mid to late summer, and as summer turns to fall the florets at the base of the panicles turn pink. The flower panicles continue to grow, producing new white florets at the tip. The result is spectacular two-toned flower panicles that can reach up to 16 inches in length. This shrub is easy to grow, and it is adaptable to most soils and both sun and shade. (Zones 3 - 8)
