**Water Needs
Moderate**

Zone 5 - 9

The 'Aristocrat' Pear; has a dominant leader and widely spaced branching. Branches are cloaked in pure white flowers in spring. Leaves are dark green, thick, and glossy. Fall color starts coppery reddish, and then it turns all the way to fiery red-orange. It is commonly planted in parking lot islands or as a specimen front yard tree. It tolerates urban conditions, alkaline and acidic soil, and occasional drought.
