

# Red Maple

Iowa Native

(*Acer rubrum*)

Shade Tree

40' - 60' High

30' - 50' Spread

Medium to Fast Growth

Full Sun/Part Shade

Various Soils

Oval Shape

The Red Maple is an easy to grow species. The Iowa native Red Maple is one of the most common and widespread species in the eastern half of the US. It is very adaptable and can grow in a wide variety conditions: periodic flooding, dry soil, and well drained soil. The name Red Maple refers to the color of newly emerging foliage, flowers, and petioles; all of which are red. The summer foliage is green, and the fall color is reddish yellow. (Zones 3 - 9)
