

Roselow Sargent Crabapple

(*Malus sargentii* 'Rehder')

Flowering Shrub

8' - 12' High

9' - 12' Spread

Medium Growth

Full Sun

Various Soils

Spreading Shape

The Roselow Sargent Crabapple is a natural dwarf with horizontal spreading branches. It is laden with profuse fragrant white flowers followed by bright red fruits that persist into winter. This shrub is outstanding when planted in groups. It has excellent disease resistance of apple scab, fire blight, cedar apple rust, and mildew. It has many different uses: large shrub, small tree, focal point, windbreak, or hedging. (Zones 4 - 8)
