

# Selkirk Flowering Crabapple

(*Malus x 'Selkirk'*)

Flowering Tree

10' - 15' High

15' - 20' Spread

Medium to Slow Growth

Full Sun

Well Drained Soils

Round Shape

The Selkirk Flowering Crabapple is a superb crabapple selection. It offers fragrant rosy pink blooms that densely cloak the branches in the spring. The newly emerging spring foliage is dark purple, opening to dark green. Fruits turn reddish purple usually by late summer and do not persist through fall. The Selkirk has excellent Fire Blight resistance. Like most Crabapples it prefers well drained soil. (Zone 2 - 7)
