(Syringa meyeri 'Palibin')

Flowering Shrub

4' - 6' High

4' - 6' Spread

Round Shape

Moderate Growth

Partial to Full Sun

**Water Needs
Moderate**

Zone 3 - 7

The Dwarf Korean Lilac is a small, spreading lilac with reddish purple buds that open to fragrant, pale lilac flowers. Blooms profusely in midseason, typically mid-May, and first flowers at an early age. Keeping the fragrance of the common lilac in a more compact tighter form makes this shrub a popular choice among lilac enthusiasts.
