The Blue Muffin<sup>®</sup> Viburnum is a smaller cultivar of Arrowwood Viburnum, which makes it ideal for residential plantings. It has clean white flowers that contrast with the glossy green leaves in early to mid-summer. The blue fruit adds interest to the fall landscape, and attract songbirds to the garden. Berries are great for birds, but not for people. The Blue Muffin<sup>®</sup> is also deer resistant. To produce berries there must be another *Viburnum dentatum* present.
