

# Norway Maple

(*Acer plantanoides*)

**Shade Tree**

**40' - 50' High**

**30' - 40' Spread**

**Round Shape**

**Growth**

**Moderate**

**Full Sun**

**Water Needs**

**Moderate**

**Zone 4 - 7**

The Norway Maple is a moderate growing shade tree with large leaves. It turns a yellowish-orange color in the fall. With a huge canopy and overarching branch structure this dense shade tree would make an excellent choice for any yard in need of shade.
