

# Winter Red Japanese Maple

(*Acer palmatum* 'Winter Red')

**Ornamental**

**8' - 10' High**

**6' - 8' Spread**

**Upright Shape**

**Growth  
Slow**

**Shade**

**Water Needs  
Moderate**

**Zone 5 - 9**

Winter Red Japanese maple is a unique ornamental tree with fiery red bark. It has bright chartreuse green foliage that turns yellow in the fall and accents well with its bark. The bark becomes more vibrant in the winter months. A great choice to plant on the east side of a house or in a shady area in the yard.
