

Dwarf Burning Bush

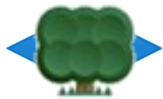

(Euonymus alatus 'Compactus')

Shrub

5' - 6' High

5' - 6' Spread

Round Shape

Growth

Moderate

Sun

Water Needs
Moderate

Zone 4 - 9

The Dwarf Burning Bush is best known for its fire red fall color. With extremely dense branching and foliage this little shrub makes an excellent privacy screen or focal piece. The Dwarf Burning Bush can be planted close to one another to create a dense hedge as well. This is a low maintenance shrub once established, and its fall color is sure to wow anyone.
