

Hens & Chicks

Groundcover

3" - 4" Tall

Spreading

**Bloom Time:
Summer**

Fast Growth

Full Sun

**Water Needs:
Low**

Zones 3 - 11

Hens & Chicks is a unique groundcover that is drought tolerant. There are numerous varieties with different attributes, from bright green to dark purple foliage. Hens & Chicks spread underground and will produce chicks that can be transplanted to fill in other areas. A great choice for filling in between stepping stones or to fill in cracks in walkways or walls.
