

Drinking Gourd Hosta

(Hosta 'Abiqua Drinking Gourd')

Perennial

16" - 18" Tall

24" - 36" Wide

**Bloom Time:
Summer**

Slow Growth

Shade

**Water Needs:
Moderate**

Zones 3 - 8

Drinking Gourd Hosta has giant, deeply cupped, corrugated leaves that will not lose their shape or stunning blue-green color, even in the hottest weather. Thick foliage resists slug damage. It has stalks of white flowers that rise above the foliage in summer. Easy to grow, and tolerant of heat and humidity.
