

# Red McIntosh Apple

(*Malus 'McIntosh'*)

**Fruit Tree**

**15' - 20' High**

**8' - 10' Spread**

**Growth  
Moderate**

**Full Sun**

**Water Needs  
Moderate**

**Zone 4 - 11**

The Red McIntosh is one of the earliest apples to ripen. It is known as the 'all purpose apple' because they can be harvested for multiple uses. They have a great balance of tart and sweet. Some popular uses would be apple butter, jelly, and cider. **Pollinators:** Fuji, Red Delicious, and Honeycrisp.
