Ornamental Tree

15' - 20' High

10' - 15' Spread

Round Shape

Growth

Moderate

Full Sun

Water Needs

Moderate

Zone 4 - 8

The Royal Raindrops® Crabapple is one of the best of the newer crabapples, with vibrant pink to red spring flowers followed by showy red-purple fruit. It has a unique foliage that emerges wine red in color, and then matures to burgundy throughout the summer before turning bright orange-red in the fall. A stunning small landscape tree with a broad, rounded form. This crab also offers great resistance to Apple scab, fire blight, cedar apple rust, and mildew.
