**Shrub**

**5' - 6' High**

**6' - 8' Spread**

**Round Shape**

**Moderate  
Growth**

**Partial To Full Sun**

**Water Needs  
Moderate**

**Zone 3 - 9**

Fragrant Sumac is a thick shrub with a dense mass of stems. Used as a windbreak this dense shrub is perfect for stabilizing banks and slopes. The glossy, blue-green leaves emit a lemon scent when crushed, and turn a mixture of red, burgundy, purple color in the fall. Drought tolerant.
