

Gro Low Fragrant Sumac

(Rhus aromatica 'Gro-Low')

Shrub

2' - 3' High

6' - 8' Spread

Round Shape

Fast Growth

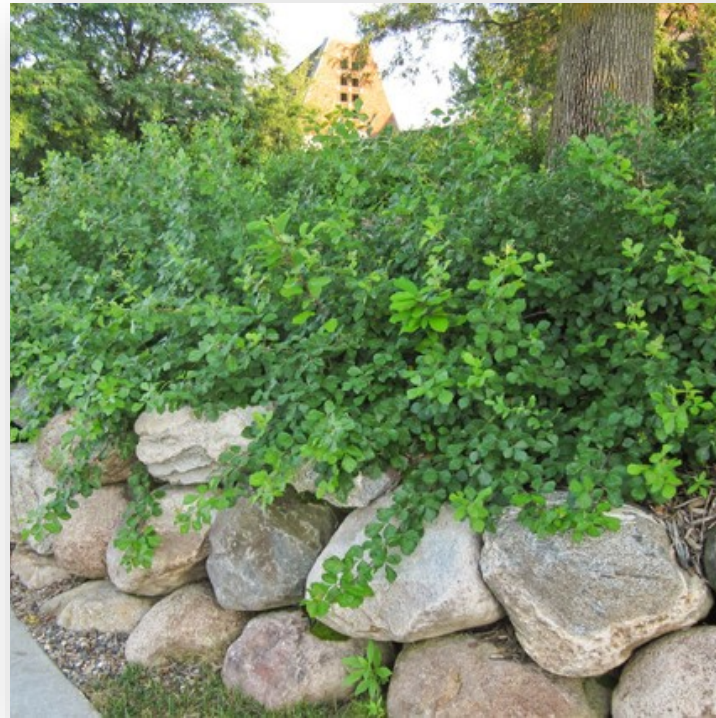

Partial to Full Sun

**Water Needs
Moderate**

Zone 4 - 9

Gro Low Fragrant Sumac is a tough, fast-growing groundcover for slopes or banks, and areas with poor, dry soil. It has glossy, green foliage that will display an excellent red fall color and is fragrant when brushed against or when leaves are crushed. It works well in border plantings or in front of taller shrubs and perennials.
