

# Dense Yew

*(Taxus x media 'Densiformis')*

**Evergreen Shrub**

**3' - 4' High**

**4' - 6' Spread**

**Upright Shape**

**Slow Growth**

**Partial to Full Sun**

**Water Needs  
Low**

**Zone 4 - 7**

Dense Yew is a low spreading shrub perfect for basic foundation planting for a hedge, screen or border. The dark green foliage backs scarlet-colored, berry-like cones. A versatile and durable evergreen that provides year-round interest in the landscape and tolerates shearing well.
